

Involve/dolby-prologic2/neo6/neural comparison

	INVOLVE/DOLBY PL2	INVOLVE/ NEO6	INVOLVE/ NEURAL	INVOLVE/ STEREO	Preferred?	
	Perceptions	Perceptions	Perceptions	Perceptions		
John DP						Electronic components salesperson / accounting.
LAC	Involve was preferred, far better and accurate surround effect	Involve was preferred. Neo6 provided poor rear image. OK up front	Involve was preferred. Neural provided almost no rear information.	Involve was preferred. Stereo did not provide interest.	Involve 1, Dolby 2, Stereo 3, Neo 4, Neural 5	Electrical/ electronic design engineer and patents
CVD	Involve was more precise and dimensional. Much better rear	Involve preferred. Neo6 was narrow image poor rear field. Neo6 was 3rd preferred system	Involve preferred. Neural rear image was poor. 4 th preference, stereo was better.	Involve preferred. Provided much greater excitement, yet maintained image accuracy and width.	Involve1, dolby 2, neo 3, stereo 4, neural 5	Electrical / Electronics engineering and speaker design.

Involve/dolby-prologic2/neo6/neural comparison

	INVOLVE/DOLBY PL2 Perceptions	INVOLVE/ NEO6 Perceptions	INVOLVE/ NEURAL Perceptions	INVOLVE/ STEREO Perceptions	Preferred?	
						Sales manager
						General management / psychology background
DA	Involve preferred. PL left too much information up front. Rears too quiet	Neo6 image compressed on the sides, not uniform surround, sounds like an echo chamber. Difficult to listen to.	Rear too quiet, seams to surge. Verall neural not good	Involve is an inofensive addition to stereo and make him want to listen to all his music again	Involve/ stereo 1, DOLBY 2, neo6 3, neural 4	Electrical / electronic engineering / speaker and audio dsp / design
						Software engineer / web designer
HD	No preference. Thought Involve provided more rear detail	Involve was preferred. Little rear information with NEO	Involve was preferred. Almost no rear information with NEURAL	Involve was preferred. Stereo was boring	Involve/ Dolby1, Neo 2, Stereo 3, Neural 4	Sales music industry
